Dear Kyle,

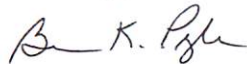

We have reviewed your Letter of Availability Request for water and wastewater service for the above referenced property. This location currently has a ¾" water meter connection.

Water mains have been installed and are in operation adjacent to the project. Static water pressure in the main exceeds 20 psi at the point where service will be provided to the project. Gasparilla Island Water Association, Inc. has sufficient capacity at its Linwood Road water treatment plant to provide 1,728 gallons per day of potable water to this location.

Sanitary sewer mains have been installed and are in operation adjacent to the project. Gasparilla Island Water Association, Inc. has sufficient capacity at its wastewater treatment plant to provide treatment for 1,728 gallons per day from this location.

If you have any questions or need any additional information, please feel free to contact me at 941-964-2423.

Sincerely,

Bonnie K. Pringle  
Utility Director
