2022 Diocese of Venice Entity Technology Survey Guide for Schools Do not submit this form. Use it to gather information for the electronic survey.

This page provides general instructions, including the purpose of the survey, what you will need for completing it, and where to reach out to should you need help.

We need your help. Due to the ever-increasing risk of cyber-attacks, insurance underwriters are now requiring specific information about technology from each entity within a Diocese. This survey will help us to provide our insurance carriers with information needed for a proper risk assessment, necessary for our 2022-2023 cyber-security policy renewal.

#### **General instructions**

Please gather key details of your technology before moving forward. Your hurricane disaster preparedness plans may be helpful in locating the following information:

- Contact information for the individual(s) primarily responsible for the day-to-day running and maintenance.
- Website domain and email domain details (the part after the @ sign in your email address and your website address). These details will include the registrar of your domain(s), the company that hosts your email and website, etc.
- Type and count of network-connected devices used at your location. Computers, laptops, tablets, network-connected printers, network switches, firewalls, WiFi access points, phones, security cameras, telephones, etc.
- List of the software packages and cloud services used at your location. Examples include Microsoft 365, Google G-Suite, Ministry Scheduler Pro, classroom management, etc.
- Specific security configurations and settings used on all computers for encryption, anti-virus/malware protection, firewalling, etc. The security questions are a separate PDF form our insurance carrier (Beasly). You will download and fill this out, and then upload it at the end of the survey.

A spreadsheet with the list of the survey questions is posted for you on the diocesan website at <a href="dioceseofvenice.org/2022dovtechsurvey">dioceseofvenice.org/2022dovtechsurvey</a>. DO NOT PRINT & SEND IN THIS GUIDE. It is provided to help you gather the information you will need when you return to fill out this electronic survey.\*

We recommend gathering these details ahead of starting the survey for the process to go more smoothly and quickly. Should you have any questions about this survey, please email 2022dovtechsurvey@dioceseofvenice.org.

\* If you use the same computer that you start the survey with, you should be able to come back to the survey and pick up where you left off, but this may not work if the cache is cleared or you use a different computer. For this reason, we recommend you gather all necessary information before starting the survey and finish it in one sitting.

# 2022 Diocese of Venice Entity Technology Survey

#### **School General IT Information**

This page includes basic IT support information, including contacts and domains used

This page includes i	basic IT support information, including contacts and domains used.
* 1 Which school:	are you filling out this form for?
1. Willer School	are you mining out this form for.
* 2. Please enter your	contact information
•	e person filling out this form.
Name	
Email Address	
Eman Address	
Phone Number	
	ridual responsible for school technology nember responsible for technology at the location, even if they contract the work out to an external
party.	
	tions & year acquired for the person primarily responsible for IT at your school. If you use or support, please include a note of their qualifications.
* 5. What is your scho	pol's <b>email</b> domain?
-	ne part used after the @ sign in an email address. If you use more than one email domain, enter the
Primary email domain	
2nd email domain	
3rd email domain	
* 6. Which domain	registrar is your <b>primary email</b> domain registered with?

This includes individuals that login to a computer and use an email account at your school. Do <b>not</b> include volunteers that only use Raptor or Volgistics kiosks to check-in/check-out.  *8. How many students have accounts of any type, including an email accounts, at your school? This includes students that actively use a computer and/or use an email account at your school. This may include alumni email accounts that are actively used, if any.  *9. Can students send or receive email messages to/from the internet (i.e. from non-school email accounts)? If yes, please comment on any restrictions or other policies in place.  Yes - Students cannot send/receive emails to/from the outside  No - Students cannot send/receive emails to/from the outside  Additional details related to student email  *10. Where is your school's email hosted? This is typically Google G-Suite or Microsoft 365, but may be another host.  Microsoft 365  Google G-Suite  Other email host (please specify below)  *11.
